like woman is not a consummate actress, how could she tell what she has told?" and crowding immediately upon this is a second query, expressed by more than many:

"To whom did she recite this story before taking the witness stand. Who was the expert critic who had the wit to point out to her the parts to pass over vaguely?"

Here, it is declared. Mae Mackenzie's constant presence at the side of Evelyn Thaw, her occupation for months of the same apartments in the Hotel Lorraine, her sitting beside the wife of Harry Thaw in the courtroom is explained.

The Mackensie girl is known to be a clever writer, her column in a morning newspaper not many seasons ago having attracted widespread attention by the writers of evident insight into things dramatic and into human nature and human affairs as well.

The young wife, it is declared, could not have gone over and over the shameful story to any man save her husband, even if that man were a lawyer. Besides what man lawyer, the holders to this contention point out could drill a woman in the use of her little."

In the corridor outside the Thaw trial court room during a brief recess this afternoon, Dist.-Atty. Jerome was standing in the corridor smoking a clarette and talking to a little knot of newspaper men on a subject not connected with the trial. Dr. Evans happened along. He extended his hand in the direction of the District Attorney, Jerome gave a good injustation of a blind man and half turned away from Dr. Evans.

"Mr. Jerome," said the doctor, "why will you not take my nand?"

"Because," replied the District Attorney took a puff of his cigarette and renewed his conversation with the newspaper reporters.

When Dr. Evans was questioned in court concerning his run in with Jerome. he said:

OUR GREAT HALF-YEARLY

Men's \$5.00 Suit Sale

BEGINS THIS MORNING

A NOTHER of the great landmarks in Broadway merchandising; the sale that twice a year enables you to buy Men's Suits at \$5.00—suits that would sell regularly at \$7.50, \$10.00, \$12.50 and even \$15.00 and \$17.50. In addition to the suits that are out from our own regular stock, many of the leading manufacturers have contributed to this sale; some of them with big assortments, others just represented with small lots.

From our own big clothing stock comes all broken lines and small lots of suits, worth up as high as \$17.50, grouped in this sale to be hurried out at \$5.00.

Year by year this \$5.00 suit sale has grown in importance, until now it is recognized as one of the great features of Broadway selling.

SACRAMENTO, Feb. 11.—[Exclusive Dispatch.] Senator G. R. Lukens of Oakland, one of the most popular members of the upper house, appeared in the Senate today for the first time this session. He bears the scars of a frightful automobile accident, of which he was a victim several months ago.

He has been traveling in Japan since the latter part of last year, and is expected to give the Senate the benefit of the knowledge he has gathered in his sojourn among the Japanese, especially that pertaining to the problems that have arisen in San Francisco. His physical condition is greatly improved, and he expects to occupy his seat during the remainder of the sestion.

SACRAMENTO, Feb. 11.—[Exclusive Dispatch.] . Assemblyman Transue's bill, providing for the creation of two additional township justice courts in Los Angeles, passed the Senate today and now awaits only the Governor's signature to become a law. The Board of Supervisors of Los Angeles county is given the authority under the law to appoint the two additional justicec. The salaries of the four offices that will exist after the law becomes effective, will be fixed by the members of the Los Angeles county delegation who now are working on the county government act for Los Angeles. The figure will be placed at \$3000 or \$3600 a year.

STANFORD UNIVERSITY. Feb. 10.

—The controversy between Stanford and California as to where the next intercollegiate track meet will be held remains, as yet, unsettled, but a crisis has been reached which will probably end within a few days in a final decision of the matter. The Stanford Executive Committee today received a letter from the California committee in which the latter explicitly refuses to submit the matter to arbitration.

The Stanford body, in special session, authorized an immediate notification of the U.C. authorities that the final setlement of the quarrel must be made at a second meeting of the Intercollegiate Athletic Committee, and Tuesday, February 12, is suggested.

It is probable that at that time the dispute will be disposed of, but in case the California contingent does not come to terms satisfactory to Stanford the U.C. authorities that the final setlement of the Quarrel must be made at a second meeting of the Intercollegiate Athletic Committee, and Tuesday, February 12, is suggested.

THLETES KEPT

BERKELET, Feb. 10.—Warm spring weather has come during the past week, and as a result the athletic training that had been discontinued during the long rain has been renewed with increased enthusiasm. The track candidates are out induging in cross-country runs through the Berkeley hills, and preparing for a hard season. This year the English system of training for endurance running will be followed more closely than ever before at California and a great number of cross-country runs will be held. There is almost ideal country around Berkeley to hold such runs. The hills back

is almost ideal country around Berkeley to hold such runs. The hills back of the campus afford fine opportunities for climbing and building of muscle and wind, while fine roads go out over the fairly level country north and south and give a fine chance for the long, easy runs that have proved invaluable, especially to distance grunners, wherever tried.

Many trainers and other persons interested in track sport attribute much of the success of the English in distance running to the large number of cross-country runs they hold. Trainer Walter Christie has decided to give the system a good trial and from now on all the track candidates, whether trying for track or field events, will go on a number of cross-country runs along the roads and climbs through the hills.

Another feature that is to characterist his season same to light when Christie issued his ultmatum to all the athietic candidates, "No roller skating or else no athletics." Christie has long been opposed to the rollers, for athletes in particular, but no one had expected he would prohibit skating altogether. The notice caused consternation among the track and baseball men, for many of them are enthusiastic skaters, but there is not one among them who has any idea of taking a chance of losing his place in the squad for the sake of the joys of skating.

Christie says that if any one is seen.

PROBES GRAIN RATE RAISE PROBES GRAIN RATE RAISE.

OMAHA (Neb.) Feb. it.—The Interstate Commerce Commission here began an investigation of the recent raise on grain rates put into effect on the Union Pacific Railroad. The complainant is the Omaha Grain Exchange, which charges that the Union Pacific raised carload rates on grain across the Missouri River bridge at Omaha from \$2 per car to \$5 and \$5 per car. The railroad admitted all the claims of the plaintiff except that it is denied that the increased rates are exceptions.

E. Hurtes and R. Modino were arrested last night on Gary street on suspicion. As a patrolman was walking along the sidewalk, which is lined with trees, one of the men leaped out in front of the officer. As soon as he saw the uniform, he walked on. At this juncture the other man leaped out from behind another tree and advanced toward the officer. The latter said that the men were slightly under the influence of liquor, but should be investigated.

SANTA BARBARA.

SANTA BARBARA. Feb. 11.—Shortly before midnight last night the grocery, store of F. B. Relly, on State street, was gutted by fire, and the stock and contents of the building are a complete loss. The fire is supposed to have caught from defective electric wring. When Officer James discovered the fire it was in the ceiling near the center of the store.

The last of the accumulation of freight in the Santa Barbara yards, since the January storm, has been cleared, and for the first time since the blockade the operating department has caught up with the rush of business over the Coast line.

Los Angeles Prohibitionists will hold an all-day conference at the Temperance Temple today. Prominent speakers from all over the county will take part in the discussions. The sessions will be at 10 am and 1:39 p.m. A banquet will be held at the Federation Coffee Club at 6:39 o'clock.this evening. Rev. R. E. Blight will act as toastmaster.

8. A. Cassidy of No. 345 Towns avenue was severely burned by carbolic acid at his home last night. His mistook the bottle of acid for medicine, and applied it to his body. He was removed to the General and Emergency Hospital, and will recover.

CHINAMAN IN TROUBLE. Tom Looy was arrested at No. 508 Amelia street on the charge of violat-ing the lottery ordinance. He was re-leased on \$50 ball.

BOMB FOR WITTE. LONDON, Feb. 12.—A special dispatch from St. Petersburg says that an infernal machine was discovered accidentally last night in a chinney of the house occupied by Count Witte, the forther Premier. The machine was set to explode after the family had retired.

Victim of Auto Dies.

B. F. Collins of No. 1255 East Twenty-fifth street, who was run down by an automobile Friday night at Washington street and Estrella avenue, died resterday at the California Hospital. Physicians in attendance signed the death certificate, and it is probable that no inquest will be held. Colins was ann aged 50 years, and leaves a widow and three sons.

Tress Are Scale infested.

A. R. Meserve yesterday reported to the Board of Supervisors that an inspection of the orange trees at the County Farm showed them to be "in a deplorable condition from black and purple scale." Meserve says if fumination is undertaken now it may injure the new growth on the trees, and if it is postponed until fall the scale will be accepted to exadicate the pest.

take his life at the Walters' Union headquarters at No. 108 North Spring street last night. When Taylor fell upon the floor, apparently unconscious, a number of his associates rushed to his assistance, while others notified the police. At the Receiving Hospital it was fuond that. Taylor was under the influence of liquor, and he admitted that after he had taken a small portion of chioral he decided that he would rather live than end his life. However, he had taken enough of the poison to affect him slightly. He was released later.

hastened to explain, however, that he hastened to explain, however, that he had not caused the arrest of Mrs. Faulkner, and said he only desired to show that the stones are his. He said he would take \$1000 for them if Mrs. Faulkner wants to buy his interest. He explained that he had bought the gems from Mrs. Meckfessel.

"I don't want to be mixed up in this affair," said Reid. "I bought the stones and they are good ones. They have cost me lots of trouble and bother aiready, and I'd rather have the \$1000 now than the diamonds.

"Yes, I went with the detectives to see Mrs. Faulkner, and I know the diamonds were taken from her. She refused to give them up after I had obtained judgment against her."

This morning at 10 o'cleck in Justice Rose's court Mrs. Faulkner and Mr. Reid will both strive to prove their claim to the stones. There is a possibility that the case w" be heard before the regular opening... court, as the Superior Court has already passed on the matter of possession.

on nursusy by Patterson and Alexander, going as a sort of "peace commission."

"Bill" Jenkins and "Old Man" Carmichael are the heads of the two contending factions. Matters have reached such a pitch of strenuosity thas it is said gan play has come up, and oldstanding troubles have broken forth in new sores that have been chafed until a neighborhood riot is imminent.

Like many another California waterway, the creek which meanders down Castaic Cañon has a habit of shifting its bed when the storm waters rage. This winter it has altered its course in the most erratic fashion, and in places runs directly along what was formerly the county road.

Carmichael and Jenkins are extensive land owpers in the cafion. Their lands lie in such position that their boundaries adjoin in many places. Now, while they both want a county road up the cañon, neither is anxioms for it to pass over his own lands.

But the storm waters switched the creek's current so that in some cases it is necessary to throw the road up on the Jenkins land in an entirely new place, and in other sections it is Carmichael's land that catches the highway.

One of these men contends that the

place, and in other sections it is Carmichael's land that catches the highway.

One of these men contends that the Board of Supervisors must build up riprapping so that the road will be thrown into its former position, now the bed of the creek. The board itself desires to throw the road farther up the banks and riprap the stream so as to make it secure in future storms.

There is the same old story, occurring in so many California communities, where each land owner has tried to turn the water's current away from his own land at the expense of his neighbor, and up in the Castaic this has stirred up old enmittes that have been dragging along for years.

Supervisors Patterson and Alexander hope to be able to reach a satisfactory agreement with the two main land owners. If this is done the lines recently-pen by the County Surveyor will be closely followed. In case an amicable decirion cannot be reached, it is probable that condemnation proceedings will be begun; but the land owners, if they are so inclined, can cause long delay by litigation before the road feud is finally settled.

the Polls.

At a special election held yesterday on the Los Feliz school district to determine whether the district should issue 18,000 worth of 5 per cent. bonds for school improvement, the bond proposition carried by a vote of 86 to 42.

This is the second election that has been held there on this question. When the votes at the first election were counted, it was found that the bonds had been defeated by a narrow margin. The second election was called without delay, and a spirited campaign has been waged.

The funds derived from the sale of the bonds will be uesd to enlarge the present school building and convert it into a thoroughly modern structure.

It is superbly portain in the superbly portain. And severywhere I heard business men and responsible people with an interest in the country on business for some Eastern firms. And severywhere I heard business men and responsible people with an interest in the country and its progress bitterly complaining against the so-called "White Australia" doctrine established by subservient governments at the dictation of political demagogues and despotic union labor bosses, as a curse to the country. They were all to the same effect—that the development of great latent resources of every kind and the expansion of agriculture and industry were everywhere prevented, and national fire them as much this great land the act of the Federal government act that practically excluded the Asiatic and colored races. British subjects and otherwise, from Australia, spelled the end of the sugar industry and the relapse of the plantations into cattle ranches again. And he remarked "Here are our farmers with their crops rotting in the fields for want of labor money."

It is evident that young countries will never be developed by socialistic labor unions, under conditions that require ail the profits and a part of the capital.

EXPLOITATION OF THE NEW

CONTINUES THIS WEEK

If you will but lend yourself to our persuasion we will lead you to ease, comfort and corset-contentment.

"L'Irresistible" and the "Gossard" corsets are supreme in artistic beauty, no other kinds being so adaptable to the present modes of dress.

Five to twenty dol-

The opportunity to investigate their advantages is afforded

every woman visiting our corset department

Mme. Farrisee, the manufacturer's expert corsetiere, is here for the purpose of explaining their unusual merits.

More new wool dress stuffs piling in every day -uncommonly rich in texture, distinctively new in design—and a variety that will meet the requirements of the extremist as well as the conservative.

Never before has a "novelty " silk become so immensely popular.

Seems like EVERY well-dressed woman prefers it for street and outing wear.

But we anticipated the unprecedented demand, and are ready with close to two hundred designs and

Women's Spring Apparel

The newest things for 1907 in tailored gowns are already here, a large collection at \$35 and \$25 and some finer ones as high as \$195. Penty of little silk dresses at \$35 and thereabouts, lovely evening gowns for social events up to \$168.50, and cloaks and capes in champagne, light green and light blue from \$25 to \$125.

It is interesting to see the Japanese note that many of the spring things are striking especially in the kimono sleeve, which does not confine itself alone to soft materials. gowns and capes, but appears on some of the finest suits.

- Half-Priced Combs

Real, radical bargains—wanted goods at prices lower than you'd dare hope. Our odd lines of jewel-set and plain or chased gold banded back combs are going on sale today for half what they usually bring.

Values \$8.50 to \$12.50 -- sale prices \$1.75 to \$6.25 apiece.

20c Fleecedowns 15c Yard

Hardly an evening or a morning in Southern California when the warmth of a fleeced dressing sacque or house gown isn't appreciated. And if you're plentifully supplied with those, a bath robe of such materials is handsome and remarkably useful as well.

Extra heavy cotton fleecedowns in striking, soft Persian designs on cream or colored grounds, in flowers or in the ring designs usually found only in the genuine French flannels at three times their price. on sale while they last at 15c, though every woman knows that such goods are staple at 20c a yard.

Colored Silk Hose Here

With Pienty of the Gold Shade

We're very proud of the varieties we can display in the hosiery section, from which you may select for wear with colored gowns this spring.

Deserving of chief mention are the gold-colored hose, now in demand for gowns of similar shade. And so far as we know, ours is the only house hereabouts which has the true gold colors.

just to run over the lists of other colors shown here—navy, pink, light blue, cream, lemon, white, champagne, nile, cardinal, rose, gray, browns, tans, bronze, heliotrope, lavender, turquoise and golden brown.

Varieties in black leave nothing to be desired, particularly good are those of silk with cotton feet, at \$1.50, and the all silk (or with cotton feet) at \$2 and \$2,50 a pair.

But because we emohasize the completeness of these more expensive stocks, don't imagine we haven't the sorts for ordinary wear as well, at 28c and higher you may bay the finest cotton and lisle thread hose the market affords at their prices.

For children's school hose, or for dress wear we show full lines of cotton and allk finished liste.

Diamonds.

'NE-FOURTH off on diamonds. I realize this is a very radical step.

I wonder if you realize it. Without considering the beauty of the diamond as a gem, do you realize its safety and its tremendous moneymond as a gem, do you realize its safety and its tremendous money-earning power as an investment? Think how diamonds increased in value last year. Why, it was only last week that the price of these gems was again raised. Their production is limited—the demand for them is ever increasing. Values increase along with it. In short, you can have the pleasure and satisfaction that a nice diamond gives—and a money-earning investment at the same time. same time.

You can buy any diamond or any piece of diamond jewelry in my stock now for one-fourth off its regular price. My stock is large and I need the money it represents in cash. Diamonds are a hobby with me. I have always made it a point to handle only gems of the first water. You know me well enough to know that what I tell you concerning any stone will be the truth.

Here's your chance, then, to purchase faultless diamonds, from a person on whom you can rely, at one-fourth their regular price. Take advantage of it.

Buggy Containing Two Women Demol-ished and Both Occupants Seriously Injured,

In a collision between a single buggy and an inbound Boyle Heights car on First street near Pecan avenue, last night about 5 o'clock, Mrs. Warner Cross of Tombstone, Ariz., was seriously bruised and Mrs. Martha Vallon of No. 1803 West Pico street was internally injured. According to the victims and the witnesses the car ran down the buggy. The injured women were sent to the Receiving Hospital.

Mrs. Vallon was showing places of were sent to the Receiving Hospital.

Mrs. Valion was showing places of interest to Mrs. Cross, who is her ristor and came here a few days ago to visit. They were proceeding west on First street, and, according to Mrs. Cross, were on the car tracks. Mrs. Cross, said that she did not hear the sound of the car's approach. A moment after the crush came she found herself on the ground and her sister a few feet away.

At the hospital it was found that Mrs. Cross was injured about the right thigh, and that her face was skinned and bruised. Mrs. Vallon sustained quite serious bruises about the body and limbs. Mrs. Cross went to the Broxburn Hotol, and Mrs. Vallon was sent to her home. The carriage was left a mass of kindling, but the horse was uninjured.

50 Cents a Share

Two experts, commenting upon the Ross Oscillating Pump, assure Mr. Ross that his patent rights for the United States alone are worth one million dollars. We believe it. We believe that the people believe it, for last Saturday when this office closed over 100,000 shares of Pump Stock had been subscribed at 25 cents a share. That is the last of 25-cent stock. From this time henceforth not a share of Pump Stock will be sold for less than 50 cents, and after this small block of 50-cent stock, which we offer this week, is taken up, Ross Pump Stock will jump to a Dollar. We stand by our promises—every one. Every promise that we have made regarding this enterprise has been fulfilled to date, and the future will see the realization of our predictions that this Pump Stock will be worth

PASADENA, Jan. 20, 1997.—[To the Britter of The Times:] Please give me some information on the element, radium; as also, a list of radio-active substances. Yours truly, G. B. F. ANSWER: An exhaustive reply to your questions would fill several large volumes of printed matter. Radium is not a metal, and it is not a simple body. Long ago this department of The Times set forth the fact that the so-called element was obtained from the tailings of the pitchblende of Austria and from which all of the uranium values mad been previously extracted; and yet meny scientists are quoted to the effect that, "generally a substance possessing radio-active property must contain uranium." Not so—the "heli-fire" ore of the Mormons (a sphalerite of Utah) in powder, dried at 190 deg. C., and mixed with 3 per cent, quinius suiphate forms a radio-active mixture. Leaven Wife and Three Children,

Tis Said.

ORANGE, Feb. 11.—A Deputy Sheriff from Los Angeles came here last Friday evening with a warrant for the arrest of Claude Brown, on the charge of deserting his wife and three children. Brown was found in a poolroom and searched.

Several letters were found, it is said from a woman with whom he had been live work on double track by a shortage of ties. It will be a short while only until active work on double track had been in need of the double track had been in need of the double track is built as far as years old, is alleged to be a bad character.

ELSINORE.

ELSINORE, Feb. II.—Charles Prince, for the past sixteen years a resident of Eisinore, died last evening after an illness of a few weeks. He was about 72 years old. A widow and two children, who reside in the East, are left. Mr. Prince was a veteran of the Civil War, and a member of various lodges. Mrs. Henry Langstaff has been called to Pasadena by the serious liliness of her mother, Mrs. Lee.

Mrs. Clyde Thompson of Los Angeles is visiting her father, Capt. L. B. Peck, in Eisinore.

CHOLO AMENITIES.

LOS NIETOS, Feb. 11.—Rumors of murders and attempts at murder here yesterday caused unusual excitement in this quiet place. The rapid disappearance up the track of a cholo, bleeding and ghastly, gave color to the stories, which had their foundation in a bloody scrap at the Pacific Electric grading camp. A knife wielded by one and a heavy iron bar in the hands of another were the chosen weapons, both men being rather seriously wounded. Under the impression that he had killed his opponent, C. Towey, the cholo who wielded the bar, fied from the scene, leaving his victim estunned and unconscious. Towey was caught in Los Angeles and turned over to the police. His victim later regained consciousness and will recover.

Varicocele

Many men afflicted with varicocele are endan-gering their general health, their manty powers, and even life itself, by allowing the disorder to remain uncurable Many of them believe it is an uncurable disease, which is far from being the truth, as I have demonstrated not only hundreds, but thousands of times.

Pollowing the second number on the regramme, repeated calls were made or the leader, and not satisfied with its mere presence after insistent desands for a speech, Mr. Hamilton reponded with a brief speech of thanks o all his friends, wao had made the athering possible from the audience, he several musical clubs of the city, brough the orchestra and thus to its resident, Miss Cora Foy. Then he alled to his aid Mrs. Robert J. Burestta, who in a characteristic little peech, presented to Miss Foy a beauful loving cup suitable engraved. Mrs. hurdette said; in part:

"This is the day and hour of expressed in actions not only louder than rords their affection for their long-imed inspirer, but in actions that express the fruch as I have give I unto hee, which was love, plus the silver and gold. This magnificent audience ave expressed their appreciation of oth Mr. Hamilton and the Woman's rechestra by the heartiness with which hey have entered into this occasion and their responsive enjoyment of this regramme replete with sweet harkensy set to unspoken words of affections and their responsive enjoyment of this regramme replete with sweet harkensy set to unspoken words of affections and their responsive enjoyment of this responsive enjoyment of discrements.

programme replete with sweet harmony set to unspoken words of affection.

"There is lacking but one strand to
the threstold cord, the tile that will
henceforth and forever bind these lovers of good music together, and that is
the appreciation which I am about to
present to the long-timed and muchloved president of the Woman's Orchearra from her loyal co-workers. To
you, Miss Foy. I have been caked in

you, Miss Foy. I have been caked in
behalf of the Woman's Orchearra from her loyal cotopresent this loving cup, a cup that
runneth over with lovalty and affection, that spurkles with harmony, and
effervesces with melody. Their clasping hands surround it and the garlend
of their friendship crowns it. Their
hearts have distilled the wine of comradeship that it holds. Whenever you
look upon it, let your heart drink a
health to these fond companions of
harmonlous hours. And may it bring
to you always tender memories that
will charm with joy your saddest moments like
"Music that gent'ier on the spirit lies,
Than tired eyelids unon tired eyes."

Completely surprised and overcome
by this unexpected token of love and
esteem. Miss Foy was unable to express in words her feelings but her actions silentiv sent to the audience and
the members of the orchestra a profound message of thenks.

Aside from the visible evidences of
succord and appreciation given by the
audience, comes the cheering word
from the box office that the dream of
the orchestra in its endesyor to raise
silose is to be more than realized, and
that in all probability the net proceeds of the concert will total considerably over 1100.
